

ANTHONY NGUYEN

(510)-309-2160 | anguy410@ucsc.edu | github.com/Mapeggs | [Linkedin/Ant](#) | [Portfolio](#)

Game Design student at UC Santa Cruz with experience in **Unity 2D, gameplay systems, 2D/3D art, and animation pipelines**. Skilled in creating original assets, implementing mechanics, UI design, and collaborating within multidisciplinary development teams. Passionate about building engaging gameplay experiences and interactive systems.

TECHNICAL SKILLS

Art & Design: Blender, Photoshop, Illustrator, Figma | **Tools:** GitHub | **Other:** UI/UX Design, Animation, Pixel Art

PROJECTS

[The Last Stick](#) | [Animation & Game Developer](#) | **Unity 2D** *2D pixel side-scroller adventure game*

- Developed a 2D pixel RPG side-scrolling adventure game featuring combat systems, enemy encounters, and boss battles
- Created original frame-by-frame pixel animations and art assets without AI-generated content
- Designed enemy types including shield enemies, spiders, and multi-stage boss encounters
- Collaborated with developers to integrate art assets and improve gameplay implementation

Tools: Unity 2D, C#, Photoshop, Animation

[CubCrawl](#) | **Front-End Developer** | [Davis Hackathon 2026](#) *Social Platform for College Clubs*

- Designed mobile interfaces in Figma and developed a responsive web prototype using HTML, CSS, and JavaScript
- Built a social thread platform concept to improve student club outreach and event communication
- Implemented interactive UI components and feed structures inspired by modern social platforms
- Designed account restrictions around **.edu verification** for student-only access

Tools: HTML, CSS, JavaScript, Figma

[3D Crawling Monster](#) | **3D Character Artist / Animator** | **Blender** *Inspired by the Kingdom Hearts*

- Modeled, sculpted, UV-mapped, and rigged a complete 3D character in Blender for animation readiness
- Developed and animated a dynamic crawling cycle focused on believable movement and creature behavior
- Iteratively refined topology, materials, and rig structure to improve animation quality and achieve a polished game-ready asset

Tools: Blender, Photoshop, 3D Modeling, Rigging, Animation

EXPERIENCE

Roblox Anime Defense RNG | Playtester *Remote | Jun 2025 – Jan 2026*

- Submitted **5+ bug reports daily** and collaborated with programmers to improve gameplay quality
- Helped identify and resolve gameplay issues using the Roblox developer console
- Contributed to growth reaching **50,000+ likes** and **2M+ visits**

Dominican Oaks | Server *Santa Cruz, CA | Aug 2025 – Present*

- Served **100+ residents** with a team of **10+ staff** during high-volume dining operations
- Managed **60+ food orders daily** while maintaining service quality

EDUCATION

University of California, Santa Cruz *Bachelor of Science — Computer Science: Game Design*

Relevant Coursework: Data Structures, Algorithms, Game Systems, Video Game Development, Unity, Blender, Game AI, Computer Architecture, Game Production, 2D & 3D Modeling/Designing, Web Development.
